## Best Wishes for the 2009 New Year

Euisun Chung  
(President of AAF)

A new year greets us!

At the beginning of the 2009, I would like to deliver my heartfelt regards for your good health and happiness.

In the last year, Beijing Olympic, the one of the biggest world festival, had successfully completed with your passionate concerns and supports.

Also, 3 Asian Grand Prix tournaments, the initial Asian (open) Compound Tournament and AAF development programs were organized.

Sincerely, I always appreciate for all supports that Asian archery families and each member association have shown so far. AAF has been focus on the development of archery in Asian continent and regional balance, and promoted the practical programs. Especially, 2009 is the fourth year of my presidential service so I believe it is the time to look back AAF activities, and strengthen and implement the effective projects to awake its purpose and goal. AAF will continue the supporting equipments and technical assistance program which led the positive responses and satisfied outcomes from the respective member

associations. Besides AAF takes considerations on planning the new plans and contents, and I hope your steady interests.

This year, major international/continental archery events such as World outdoor Championships, Youth World Championships, FITA World cups, Asian Championships and Asian Grand Prix will be organized. I expect you would enjoy the victories and fruitful results to the full through your active participations.

Thank you for your continuous cooperation, and once again, I wish your energetic and joyful new year!

Best regards,

Euisun Chung  
President  
Asian Archery Federation

## ► 2008 AAF Joint Training Program

Date : Dec. 15~19, 2008

Venue : Bangkok Training Center, Thailand

The first AAF joint training program planned by AAF development committee was organized and total 27 archers and coaches from 10 member associations participated. This is the fewer number than expected due to cancellations of participation of member association caused by Bangkok airport circumstances. This factor will be reflected when we select the date and venue for the next program.

Training was organized as workshops & seminar and lectures mainly dealt with actual shooting skill training and sports scientific matters.

Technical aspect was taught by Mr. Sun Bin Kim (KOR) and Mr. Kaenchan Lertporn (THA). They emphasized on archery equipments, especially the way of bow tuning checking so archers could make sure for their archery equipments. Regarding the archery shooting skills, archers were divided into 2 groups and each coach analyzed their techniques and instructed individually. Through this archers experienced amendment and make up, so they could make sure for their techniques firmly.

Besides, mental preparation for the archery competition was delivered by Dr. Purachakul from Thailand Olympic Committee. Also, Psychological aspect of archery training for the pre-competition routine was presented by Mr. Sung Ho Um (AAF SG), and the use of FITA shooting regulation for archery competition was lectured by Mr. Baharuddin Jamil (AAF vice-president).

These programs of technical shooting training and competitive strategy would be the steps to improve their training methods and theoretical archery back ground.

I expect this program will be organized more practically, so it will be a good chance to enhance the shooting abilities in the future. Also, this program provided a good teaching method for a few of participated coaches. Therefore, considerations for the coaching abilities would make this program very fruitful for the future.

Respectfully submitted  
Sung Ho Um  
Secretary General/ AAF  
Member/ AAF development committee
